3.Created new columns and new measures for the Dashboards:

The screenshot displays a Power BI dashboard with a data table and a Fields pane. The data table has columns for various metrics, including 'Special Projects Count', 'Last Performance Review_Date', 'Days Late Last30', 'Absences', 'EXPERIENCE', 'Age', 'Age band', 'Employee count', 'Attrition', and 'us citizen'. The Fields pane on the right lists available data sources and measures. Two measures, 'Active employee' and 'Attrition Rate', are highlighted with a red circle in the Fields pane. A red line also highlights the corresponding columns in the data table.
